Worcester County Public Schools recognizes the importance of increasing the engagement of parents and families in the educational process. The partnership between educators and parents and families is critical to the success of every student. WCPS has included a goal in their ESSA Consolidated Strategic Plan devoted to increasing parent, family and community engagement. Annually we evaluate our program by conducting two parent surveys with all

schools. The first survey, which is county generated, is designed to evaluate the effectiveness of our programs including barriers to participation and of parent priorities for the school system. The second survey in May, is centered on communication. This survey, SCOPE, is only administered every 4 to 5 years. Parents and families are asked to give us feedback about how the teachers, the schools, and the system communicate with parents and families about their child, assessment, achievement, opportunities, and all areas related to their child. Each school and the Title I office receives survey results to guide decisions for parent and family engagement plans and needed activities.

POL. I-C-4 Parent/Community Involvement

The Worcester County Board of Education recognizes that a child's education is a responsibility shared by the school, family, and community during the entire period the child participates in school. A mutually supportive relationship among home, school, and community contributes to the development of both the child and the community. Partnerships result in such sharing. To accomplish the mission of the Worcester County schools to successfully educate all students, the community, the schools, the parents and the students must work as cooperating knowledgeable partners.

The Worcester County Board of Education will support schools in their efforts to increase student achievement by helping them interpret the results of all assessments and to develop school improvement plans that incorporate parent/community involvement as a means for improving school performance.

Specifically, the school system will:

- A. Publicize its commitment to parent/community involvement in the schools;
- B. Recognize exemplary programs and practices related to parent and community involvement;
- C. Create an environment that is conducive to learning and supports strong comprehensive family involvement programs;
- D. Seek funding sources for the development, implementation and evaluation of programs;
- E. Disseminate information and research on parent and community involvement;
- F. Inform and involve parents in a variety of types and degrees while recognizing the diverse needs of families in the community;
- G. Provide programs that train parents in parenting skills and in assisting their children academically;
- H. Make parent involvement an integral part of the school improvement process;
- I. Encourage parents to become involved in their children's academic progress;
- J. Assist parents in learning techniques designed to assist their children in learning at home;
- K. Seek partnerships with interested businesses and service organizations.

Schools must develop innovative ways to involve and serve parents and other community members. Educators, parents, students, businesses, and other members of the community must assume joint responsibility for contributing to the fulfillment of the educational aspirations of children and adults. A community's investment in education is an investment in itself.
